CIRCUIT COURT IS  
NOW IN SESSIONNEGRO FORGER SENTENCED TO  
PENITENTIARY TWO TO  
FIVE YEARS.

The Lawrence Circuit Court convened Monday. Judge Claco delivered a strong charge to the grand jury, after that body was empaneled, and the grand started.

Commonwealth's Attorney John M. Waugh is not present, because of a broken leg. R. C. McClure was appointed in his stead.

Misdemeanors have occupied the time of the court, except the case of Arthur Fleming, a Carter county negro charged with forgery. Lewis Hatfield was appointed by the court to defend Fleming. When the case was called he pleaded guilty and was given a sentence of two to five years in the penitentiary. Nearly two years ago he forged the name of Mrs. Elia Hays to a check for \$25 and cashed it. He was traced to Maysville and then to Dayton, Ohio, where he was under arrest for a similar offense. He was sentenced to one year in the Ohio penitentiary and at the expiration of his term two months ago he was brought to Louisa and placed in jail. It is said he served a term at Frankfort several years ago.

The case against Robert Frazier, charged with killing his niece, in Carter county, is set for February 28. Mr. Waugh will be present to prosecute. Following are the juries:

## REV. VAUGHT DEAD.

News of the death of the Rev. J. O. A. Vaught, formerly of Winchester, was received in a message from Los Angeles, Cal., where he had gone for his health. He recently suffered a stroke of paralysis.

The Rev. Mr. Vaught is survived by his widow, one son, S. K. Vaught, of Winchester, and five daughters, Mrs. William Collins, of Danville; Mrs. Dorsey Ray and Misses Sarah Vaught, Mattie Miller Vaught and Elizabeth Vaught. He was a brother of Dr. J. G. Vaught, of Winchester. He recently resigned his pastorate at Carlisle because of failing health. He was for some time presiding elder of the Covington and Franklin districts of the Kentucky conference of the Methodist church and formerly was pastor of the First Methodist church in Winchester. He has had charges in several cities of Central Kentucky.

WOMEN'S MEETING TO  
BE AT HUNTINGTON

W. M. S. MARCH 16-20, CHANGED  
FROM FAIRMONT, WEST  
VIRGINIA.

The Herald-Dispatch says: The West Virginia Conference of the Women's Missionary Society of the Methodist Episcopal church, south, will be held in Huntington March 16-20. This conference was to have been held in Fairmont but was transferred to Huntington because of the prevalence of infantile paralysis in that section of the state. The sessions will be held at Johnson Memorial church.

The executive committee of the conference met yesterday afternoon in the steward's room at Johnson Memorial to make plans for the March meeting and to consider the year's work.

Those in attendance were as follows: Mrs. J. L. Vinson, second-vice president, Pikeville, Ky.; Mrs. W. L. Reid, superintendent of supplies, Prestonsburg, Ky.; Mrs. Davis Meek, Paintsville, Ky., superintendent of literature; Mrs. G. W. Atkinson, Pikeville conference corresponding secretary; Mrs. Robert E. Thornburg, Huntington, treasurer; Mrs. J. W. Hagen, Huntington, superintendent of publicity; Miss Addie Thornburg, Huntington, secretary Huntington district.

These officers keenly regretted the fact that the illness of the president, Mrs. G. R. Armstrong, of Logan, prevented her from attending. The reports showed a favorable increase over last year's work. The funds for missionary work and causes outside of the conference exceeded by more than one hundred dollars the fixed budget of \$6,000 while the funds gathered for various uses within the conference total \$8,795.57.

The conference is expected to bring sixty delegates and probably twenty additional visitors. These ladies will be entertained in the homes of the

Southern Methodist families of Huntington.

It is expected that at least two ladies from the Woman's Missionary Council of the Southern Methodist church will take part in the program, these being Mrs. Luke Johnson and Mrs. W. A. Albright of Columbus. It is hoped, too, that the president of the general council, Mrs. Belle Bennett, who is now in the Orient but will soon return home, will be present.

THREE IN ONE FAMILY  
LOSE RIGHT EYE.

Portsmouth, Feb. 9.—George Mitchell, of Bertha, on the west side is slowly recovering from burns he suffered when he met with an accident while at work in the plant of the Whitaker-Gleasoner company several weeks ago. He was burned about the arms, face and back and the flames destroyed the sight of his right eye.

Fate has been particularly unkind to this family as three members are now minus their right eye. Charles, aged 11, lost the use of his right eye when he was hit by a rock; Harold, aged 6, lost his right eye, the result of an attack of spinal meningitis, and Mr. Mitchell the father, now loses his right eye in an unfortunate accident in the steel plant.

## J. N. KEHOE'S SON INJURED.

The efforts of Representative Fields, of Kentucky, to have William Kehoe, son of former Representative Kehoe, of the Ninth Kentucky District, placed on the retired list because of injuries suffered from a fall from a horse after serving more than half his time at West Point, failed to-day because of a refusal of unanimous consent for consideration of the bill.

KENTUCKY NORMAL  
COLLEGE RALLY

ANNUAL EVENT WILL BE HELD  
ON FRIDAY OF NEXT  
WEEK.

On the night of Friday, October 23, a rally will be held at the courthouse in the interest of the Kentucky Normal College. An interesting program is being arranged and an invitation is extended to the public to attend.

We have not at hand a complete program. Some of the numbers are yet to be supplied. Among the speakers will be Judge A. N. Claco and Rev. J. H. Stambaugh, who are well known for their ability to fulfill the demands of any occasion.

The K. N. C. has a large attendance this year. It is stronger in some departments than ever before. The faculty is complete and competent and good work is being done.

Come out Friday night of next week. You will find it interesting and help.

WELCH MERCHANT  
SLAIN WITH AXE.

Word of the death of Louie DeBarry, a merchant, of Welch, W. Va., was received in Huntington yesterday. DeBarry is known to a number of Huntington business men. He was slain, according to reports here, by an Italian who threw a meat axe at him. No other particulars were received here.

DeBarry had recently taken out a \$5,000 life insurance policy with the Home Life Insurance Company, of which R. A. Bickel, of Huntington, is district manager.—Herald-Dispatch.

## R. O. CONLEY ACQUITTED.

R. O. Conley, former employee of the Singer Sewing Machine company here, who has been on trial in the criminal court for the past two days, was declared "not guilty" by a verdict of a jury yesterday afternoon shortly after four o'clock. The jury deliberated but fifteen minutes. This was the second time Conley has been acquitted. He was tried at a previous term of criminal court on a charge of embezzlement and was declared not guilty of that charge. A third indictment against him will be nolleed if the court grants a request which Conley's attorneys will make within the next few days.

Following an admonition by Judge Taylor, there was no demonstration when the verdict was brought in. Sheriff Love was in the court room to carry out the judge's order in case a demonstration occurred.

The court room was crowded during the trial yesterday. Conley and two small daughters were in the court room to await the verdict.

Conley was arrested in Canada and brought to Huntington by police detectives after the first international extradition process ever instituted on behalf of local authorities. He will return to Canada and resume his old position with the Hudson Bay company.—Herald-Dispatch.

## HEIR TO BIG FORTUNE.

The Lexington Leader says: Mrs. J. E. Walters, of this city, who was Miss Pearl Curry, of Lebanon, before her marriage, is one of the beneficiaries of the estate left by her uncle, J. E. Taylor, of Marion-co., which is said to be worth approximately \$1,000,000. Mrs. Walters was in Winchester the past week to confer with relatives and attorneys relative to the estate, which is to be equally divided among the fourteen nieces of the deceased. Mrs. Walters being one of them. Her husband, J. E. Walters, is a son of Dr. W. L. Walters, of Clark-co. Dr. Walters now lives in Anasney. He married Mrs. Mollie Munsley Moore, widow of Dr. A. H. LARGE RELAY STATION  
AT GLENHAYES, W. VA.PIPE LINE INSTALLING PLANT  
TO DRIVE OIL MORE RAP-  
IDLY.

The Eureka Pipe Line company is building a large pumping plant or relay station at Glenhayes, W. Va., ten miles east of Louisa. This is for the purpose of expediting the flow of oil through the pipe line from Somerset and Estill-co., Ky., to the refinery at Parkersburg, W. Va.

The site is on two acres of land purchased from the widow York. Quite a large force of men is employed there now in placing six engines and boilers, large storage tanks, and other apparatus. Ten or twelve men will be permanently employed to operate the plant after it is installed. This is quite an important enterprise for Glenhayes.

Six tons of coal per day is to be furnished from a mine operated at Glenhayes by Mr. C. C. McCubbin. The Eureka Pipe Line is to the West Virginia portion of the Cumberland line. The latter is the Kentucky branch.

Glenhayes is enjoying quite a boom. Six dwelling houses are in course of construction and there are prospects of considerable coal development.

TROLLEY LINEMAN  
ELECTROCUTED.

Jesse Mayo, age 30, a veteran lineman employed by the Consolidated Light, Heat & Power company, was electrocuted yesterday morning on a pole at Twenty-second street and Third avenue. Mayo, who is single, came here from Richmond, Va., about six months ago.

Officials of the light company are puzzled as to how he was killed. Although he wore protective gloves, both hands were badly burned. Lon Cassidy, who was on the pole with Mayo, cut the wire away from his body, and the fire department was called to remove the body. Efforts at resuscitation failed.—Huntington Herald.

LAWRENCE AKERS HAS  
SPINAL MENINGITIS.

J. W. Akers, of Richardson, returned Monday from Maybree, Mich., where he went to see his brother Lawrence, who is dangerously ill with spinal meningitis. He is at the home of his father-in-law, G. L. Burke. When stricken with this terrible disease he was employed as street car conductor in Toledo, Ohio. His suffering is indescribable. He is a son of Mr. and Mrs. John Akers, who live on Lick creek, four miles from Louisa, and is an excellent young man.

The latest news is that he has no chance to recover.

## IS SUBJECT TO CALL.

The Ironton, (O.) Register says: Harry C. Corns, brother of John B. Corns of the Register as a member of the American Society of Engineers is subject to call for army duty at any time, for the members of the society have pledged their services to the army engineers to a man in time of war. Mr. Corns was formerly in the government work.

Mr. Corns is the son-in-law of Mr. and Mrs. J. Q. Lackey, of this city.

BAPTISTS HOLDING  
BIBLE INSTITUTE

PROGRAM IS VERY STRONG AND  
BEING CARRIED OUT  
FULLY.

The Bible Institute is in session at the local Baptist church. It began last Monday and will close Friday night. Dr. J. W. Porter, of Lexington, was a big attraction Monday. He spoke at the court house to a large crowd early in the day on "Making a Happy Home." It was a very fine lecture and highly appreciated by the large audience.

This was not on the program, but was by request after he got here. His addresses at the church were among the most enjoyable ever heard here. He is one of the strongest ministers in the South.

W. J. Vaughan sustained his reputation in the numbers given him on the program, as did all the other speakers. The program for Friday is a good one. The meeting is a success and those who have attended have derived much benefit.

## HE WANTED A "CHAW."

Evansville, Ind., February 10.—Charles Brooks, living in the mountains of Eastern Kentucky, and who says he is 105 years old, came here to-day in search of his son, and being unable to find him, was given lodging at the police station. The first thing he asked for was "a chaw of tobacco."—Cincinnati Enquirer.

## A CORRECTION.

In our last issue we had the names of persons who had purchased the large memorial windows in the new church building. The name of M. G. Berry was by mistake used instead of that of the Wallace family.—E. E. D. Wallace and sisters.

Pearley Copley, of Ashland, is in town this week.

Last May, J. B. Williams, of Ashland died following an operation for appendicitis. In September, M. C. GERMANS RENOUNCING  
ALLEGIANCE TO KAISER.

New York, February 11.—The rush of German and Austrian subjects to obtain American citizenship papers is expected to continue to-morrow. Although it is Lincoln's birthday, a legal holiday, the office of the Clerk of the United States District Court will be kept open.

More than 10,000 persons of foreign parentage have applied for citizenship in New York city since the severance of diplomatic relations with Germany. Of this number 7,149 were Germans and Austrians. Those who have renounced allegiance to Emperor William and Emperor Charles have come from every walk of life. Many of them have been in business in this country many years.

The rush of Germans and Austrians for citizenship has been by no means confined to New York city. There have been similar manifestations in practically all other large cities.

THE NATIONAL FARM  
LOAN ASSOCIATION

LAWRENCE COUNTY ORGANIZATION WILL BE MADE VERY SOON.

A considerable number of applications for loans on farm lands have come in since we announced two weeks ago that we would help to organize a Farm Loan Association for Lawrence county farmers. We will hold the proposition open another week, at least, before calling a meeting to organize the association. Let all who want to borrow money on farm land security write or call and let us know at once how much they want to borrow. Do not exceed half the value of the land. The details will be fully explained and all questions answered at the meeting. The application which we are suggesting that you send in is not binding if you find upon investigation that the plan does not suit your case.

For the benefit of those who do not seem to understand it we will say that the United States government is operating the Farm Loan banks, and not private persons. Therefore, it is absolutely safe. The government will not take any profit, but only running expenses. The net profits go to the borrowers in proportion to the stock they hold.

We are doing this purely as an accommodation. The farmers will organize the association and elect the officers from amongst themselves.

SUFFERING FROM  
SHORTAGE OF CARS

COAL MINES IN THIS SECTION  
ARE BADLY HANDICAP-  
PED.

The shortage of cars and the embargoes of railroads on account of congested conditions at terminals is playing havoc with the coal operators in this section. The demand for coal is very strong and prices are high, but since are running only two or three days a week at most points because the coal can not be shipped. A number of lines connecting with the C. and O. are refusing to receive shipments, as all yards and sidings are full of loaded cars. Some of the roads in the west are blocked by snow and this adds to the troubles. Many places are suffering from coal shortage which can not be relieved. The situation created by Germany's submarine warfare makes it impossible to induce ships to venture out with export coal. So altogether the coal men are bawling their troubles.

GERMANY ASTONISHED  
WHEN U. S. QUILTSTHOUGHT WILSON WAS AFRAID  
OF GERMAN-AMERICAN UP-  
RISING.

RISING.

By Carl W. Ackerman.

Erne, Switzerland, Feb. 13.—Berlin was astonished, officials and public alike, when President Wilson broke relations with Germany. That astonishment came because officials had recently been assured by German-Americans in the United States that Wilson would not sever relations for fear of a German-American uprising. The same belief was held by the German people. When the American Embassy train left Berlin, the Imperial Chancellor von Bethmann-Holweg was admittedly downcast over the situation and believed America wanted war with Germany.

It was noticeable also when Foreign Secretary Zimmermann received the American correspondent shortly before their departure. He was plainly nervous. He likewise insisted "Wilson wants war" and then denied that Germany made any irrevocable promises in the Sussex note.

Germany's public and officialdom did not believe entrance of America into the war would have the slightest effect on the outcome. As a matter of fact, Field Marshal von Hindenberg believes with preparations now under way, the war will be won by Germany before America can enter, if she does enter. Though the German army and navy is prepared, and anxious, for war with America, German newspapers have been urging Americans to work for peace and have been beseeching the German admiralty not to torpedo ships carrying American passengers. Their efforts, however, do not appear to be successful.

Writing now from neutral Swiss soil, it is impossible for the first time to tell the developments which led Germany to her decision of relentless submarine warfare.

Determination to use the submarine in unlimited warfare dates back to November. It was then that Germany's internal affairs were in the greatest crisis of the war.

The Socialists warned the Kaiser that unless he moved immediately for peace, Dr. Philipp Scheidemann, Socialist leader is the Reichstag, and other Socialist leaders would head a militant movement to bring about peace. This movement came at time when the German people were destitute and despondent.

Simultaneously the powerful conservative land owners controlling the food and equally powerful club of industrial leaders controlling the munition manufacturers told the government the only way to end the war was by unlimited submarine warfare.

These interests have always been anti-American. They succeeded in convincing quartermaster general von Ludendorff. Meanwhile the national liberals who would welcome war with America won over Foreign Secretary Zimmermann to the submarine policy.

Finally the Kaiser's birthday conference at the German headquarters March 7, did not include in its conference such officials as the Minister of the Interior, Minister of Colonies and the Imperial Treasurer, known to be opposed to inviting American intervention.

# A Southern Gentleman Is Popular Everywhere

Just think this over a minute.—How many friends have you? Not the fellows who borrow from you—I mean the chaps who will fight for you! Fellows who believe in you—who stick by you through thick and thin. You can count them on one hand, can't you? But listen to this.—I have several million down South here.

And why? Because I've been on the level.

I've played fair. I've never lied to my friends, nor cheated them, nor double-crossed them, nor held out on them.

They know me by my right name—SOVEREIGN. A true gentleman of the South, born and bred of the real Southern stock. I mingle the blood of Virginia and Carolina—the best in the world—the choicest, sweetest, ripest, smoothest tobacco you ever smoked.

**You Folks of the South KNOW Good blood!**  
**You Folks of the South KNOW Good tobacco!**

I have friends down South, and I keep them—because quality does tell. And it means a whole lot when I say:

I am guaranteed by *The American Tobacco Co.* —Buy me. If you don't like me return me to your dealer and get your money back. I have said it. A Southern gentleman is known the world over for keeping his word, and I have given you mine.

FOR THE GENTLEMAN OF THE SOUTH  
"King of Them All"

### NEWS OF GENERAL INTEREST FROM THE WORLD AT LARGE

SATURDAY.

King George in reopening the British Parliament referred to the recent German peace proposals. Declaring that their tenor indicated no possible basis for peace, the King reassured that Great Britain and her allies remained steadfast in their determination "to secure the just demands for reparation and restitution in respect of the past and guarantees for the future which we regard as essential to the progress of civilization."

Germany yesterday asked Ambassador Gerard, who is still in Berlin, to reaffirm treaties of 1799 and 1823, which protect merchants of Germany and the United States in the event of the declaration of war. Mr. Gerard referred the German officials to the Spanish or Swiss intermediaries. There has been no denial from Germany that the United States Ambassador was being held until Germany can satisfy herself that Count von Bernstorff has been properly treated.

The announcement has been made by the State Department on the authority of President Wilson that in case of war between the United States and a foreign country, the Government will under no circumstances take possession of the property of the subjects of such foreign nation to which international understandings and the recognized law of the land give it no just claim or title.

The Holland-American line steamship Ryndam, which turned back to New York a week out of port, is said to have been warned to do so by a German submarine just outside the war zone.

Sweden will not acquiesce in President Wilson's suggestion that neutral countries follow the action of the United States and sever diplomatic relations with Germany.

Enemy and neutral ships aggregating 21,505 tons have been sunk by German submarines during the last twenty-four hours. Ten vessels in all were sent to the bottom during this period six of them British steamers of an aggregate tonnage of 16,738. The neutrals sunk were a Norwegian ship and a Swedish steamer. A French trawler and a Russian ship were the others victims of U-boats.

SATURDAY.

Addressing Amherst Alumni Secretary Lansing last night declared that the United States is standing on the verge of war, but that there is still hope that this country may be spared.

The Swiss Legation in Washington has been informed that Ambassador Gerard, his staff and fifty American citizens would leave Berlin last night by special train for Zurich, Switzerland.

The harvest of the German submarine campaign from reports received Saturday increased the total loss of tonnage by 22,271 tons. Four British and three Norwegian steamers are the latest victims of the U-boat blockade measures.

Sufficient evidence to warrant the Department of Justice, asking indict-

ments of paper manufacturers for alleged anti-trust law violations. It is said, has been uncovered by the Federal investigation which, it is understood, will report to Congress that advances in news-print prices within the year have been four to twenty times the advance in production cost; also, that there never has been an actual news-print shortage.

British forces retain their hold on the new positions east of Saltillo, despite German attacks. The latest offensive movement of the Germans was preceded by a heavy artillery bombardment, but the British maintained the line successfully. Artillery activity has been marked north of the Somme and along the Meuse, in the Verdun sector.

An immediate investigation by the Federal Trade Commission and the Department of Agriculture into the causes for the advancing price of food was directed yesterday by President Wilson.

**A CHILD HATES OIL, CALOMEL, PILLS FOR LIVER AND BOWELS**

GIVE "CALIFORNIA SYRUP OF FIGS" IF CROSS, SICK, FEVERISH, CONSTIPATED.

Look back at your childhood days. Remember the "dose" mother insisted on—castor oil, calomel, cathartics. How you hated them, how you fought against taking them.

With our children it's different. Mothers who cling to the old form of physic simply don't realize what they do. The children's revolt is well-founded. Their tender little "insides" are injured by them.

If your child's stomach, liver and bowels need cleansing, give only delicious "California Syrup of Figs." Its action is positive, but gentle. Millions of mothers keep this harmless "fruit laxative" handy; they know children love to take it; that it never fails to clean the liver and bowels and sweeten the stomach, and that a teaspoonful given today saves a sick child tomorrow.

Ask your druggist for a 50-cent bottle of "California Syrup of Figs," which has full directions for babies, children of all ages and for grown-ups plainly on each bottle. Beware of counterfeits sold here. See that it is made by "California Fig Syrup Company." Refuse any other kind with contempt.

### A FEW FACTS ABOUT COUGHS AND COLDS THE PUBLIC SHOULD KNOW

Whether this Cold will prove a simple catarrh of the nose and throat of but short duration and mild character; whether dread Pneumonia, with its sharp and fatal sting, shall be the sequence; or whether the blighting blast of the White Plague shall sit spectre-like upon its victim no one can foretell; hence the great importance of treating all colds, however mild, promptly and energetically. In urban populations the services of a skilled physician is always within call, but in rural districts, distance and inclement weather often act together to forestall the doctor's timely aid, so that valuable time is in this way lost. It was particularly for this latter class of sufferers that MEINHARDT'S GERMAN COUGH REMEDY was invented.

## Use "Gets-It," Lift Corn Right Off

Shrivels, Loosens—and It's Gone!

"Just like taking the lid off—that's how easy you can lift a corn off your toe after it has been treated with the wonderful discovery, 'Gets-It.' Hunt the wide world over and you'll find nothing so magic, simple and easy as 'Gets-It.' You folks who

have wrapped your toes in bandages to look like bundles, who have used salves that turned your toes raw and sore, and used plasters that would shift from their place and never 'get' the corn, and who have dug and picked at your corns with knives and scissors, and perhaps made them bleed—just quit these old and painful ways and try 'Gets-It'! Just once. You put 2 or 3 drops on, and it dries at once. There's nothing to soak. You can put your shoe and stocking right on again. The pain is all gone. Then the corn dies a painless, shriveling death. It loosens from your toe, and off it comes. 'Gets-It' is the biggest selling corn remedy in the world today. There's none other as good. 'Gets-It' is sold by druggists everywhere. 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill. Sold in Louisa by Louisa Drug Co. J. H. REYNOLDS.

A READER OF THE NEWS.

LIFT YOUR CORNS

OFF WITH FINGERS

Tells how to loosen a tender corn or callous so it lifts off with-

out pain.

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called Freezone, which the moment a few drops are applied to any corn or callous the soreness is relieved and soon the entire corn or callous, root and all, lifts off with the fingers.

Freezone dries the moment it is applied, and simply shrivels the corn or callous without inflaming or even irritating the surrounding tissue or skin. A small bottle of Freezone will cost very little at any of the drug stores, but will positively rid one's feet of every hard or soft corn or hardened callous. If your druggist hasn't any Freezone he can get it at any wholesale drug house for you.

GIRLS! GIRLS! TRY IT!

STOP DANDRUFF AND

BEAUTIFY YOUR HAIR

HAIR STOPS FALLING OUT AND

GETS THICK, WAVY, STRONG

AND BEAUTIFUL.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderline hair cleanse." Just try this—moisten a cloth with a little Danderline and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderline dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair.

But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it surely get a 25-cent bottle of Knowlton's Danderline from any druggist or toilet counter, and just try it.

SOUR.

You men and women who can't get feeling right—who have headache, coated tongue, bad taste and foul breath, dizziness, can't sleep, are bilious, nervous and upset, bothered with a sick, gassy, disordered stomach, or have a bad cold.

Are you keeping your bowels clean with Cascarets or merely forcing a passageway every few days with salts, cathartic pills or castor oil?

Cascarets work while you sleep; cleanse the stomach, remove the sour, undigested, fermenting food and foul gases; take the excess bile from the liver and carry out of the system all the constipated waste matter and poison in the bowels.

A Cascaret to-night will straighten you out by morning—a 10-cent box from any drug store will keep your stomach sweet, liver and bowels regular, and head clear for months. Don't forget the children. They love Cascarets because they taste good—never gripe or sicken.

Indiana has passed a prohibition law and the Governor has signed it. The State will be dry after April, 1918. The good work goes on.

A weekly publication in London, The Nation, pays tribute to President Wilson as "the most far-sighted and strongest man who to-day leads a civilized people."

President Wilson is trying to avoid war, and has put the burden upon Germany of deciding whether or not we must have it. He only demands that Germany keep her word given in the Sussex case. Preparations for the worst are going hastily forward.

Mr. Bryan and other peace propagandists and critics by their activities are causing more trouble for the United States abroad than all other agencies. Germany would never have broken her pledges and driven this country to the verge of war if she had not been led to believe by these activities that a dangerously large element was for peace at any price. Why don't they keep still if they can not be loyal and patriotic.

The Kentucky Legislature met in special session Wednesday to consider new tax laws.

Sara Bernhardt, the world's greatest tragedienne, gave a performance in Huntington Tuesday night, at which every seat worth having was sold at not less than \$2.50. She is somewhat excusable for pulling the legs of the public, having had one of hers amputated two or three years ago.

That German subjects are not crazy to die for the Kaiser is proven by the fact that thousands of them are crowding the courts of the United States, asking to be made citizens of this country. This indicates the true feeling of German subjects in general. The millions of poor, helpless targets in the battle lines of Europe would gladly change their citizenship if they had a chance.

If a bunch of feudists should take possession of the streets of a town or city and notify all neutral business men that they would be shot if they attempted to go to and from their places of business as long as the feud lasted, what would be the sentiment of the neutrals and the public? That is what Germany has done on the water highways of the world, after promising to do this.

An American newspaper man who has just come out of Germany says the Kaiser and his official subjects were astonished when diplomatic relations were broken, because they had felt absolutely confident that President Wilson would not take this step for fear of a German-American uprising in this country.

What a shock it must be to the Kaiser to see not only the German-Americans declaring their loyalty to the United States, but thousands of German subjects rushing to our courts to become citizens of Wilson's country.

Old blatherskite Carranza has given the snap dead away. What has been long suspected and charged is now known to be a fact—that Germany had a large hand in causing trouble for the United States in Mexico. Carranza makes a ridiculous and hypocritical plea for peace in Europe and has the nerve to suggest what the United States should do in the matter. He isn't able to handle Villa and should keep his lip out of everything that amounts to a man's job. His promises are as unreliable as the Kaiser's. We have tried them both.

Congress has passed the Immigration restriction law over President Wilson's veto. This was the fourth time this law had been vetoed, the first time by Cleveland, then by Taft, and twice by Wilson. The literacy test was the objectionable feature.

The literacy test provided for in the bill, excludes from the United States all aliens over 16 years of age physically capable of reading who cannot read the English language or some other language or dialect, including Hebrew or Yiddish. Any admittable alien, however, or any citizen of the United States may bring in or send for his father or grandfather, over 55 years of age, his wife, mother, grandmother, or unmarried or widowed daughter, if otherwise admissible, regardless of whether such relatives can read.

U. S. Senator Works of California, made a German speech in the Senate a few days ago when a resolution was up to endorse President Wilson's action in breaking diplomatic relations with

Germany. He lives at Los Angeles and the following from his home paper shows what they think of his unpatriotic act:

In comment on Senator Works' speech the Los Angeles Times editorially says: "It is to be hoped, but not expected, that when the senatorial term of John D. Works expires, 24 days hence, he will not return to this city but go to Germany or hell. He misrepresents California and blots in his old age the creditable record he has made in many things by protesting against the action of the President in severing diplomatic relations with Germany, and he slanders his country in saying that the United States has not been neutral as a nation."

There is a prominent man down in that part of Kentucky having no coal deposits howling for a tax of one cent per bushel on all the coal mined in the State. One cent a bushel is 25 cents a ton. That is more than the profit received by operators a good portion of the time. We have helped to buy coal for certain Kentucky State institutions at 90 cents per ton, f. o. b. mines, high-grade steam coal, run of mine. After the operator pays 10 cents per ton to the land owner and the expense of mining and loading and conducting his business, it is quite evident that he can not pay a tax of 25 cents per ton and compete with West Virginia and Pennsylvania coal. Such a tax would close the mines of Kentucky and put them where present laws have put various enterprises that Kentucky ought to encourage.

When we first saw this suggestion we thought the man meant one cent a ton, but we have seen more of his literature clamoring for a cent a bushel and stating that it would pay off the State debt in a short time. To be sure it would if the law did not kill the goose, but the day such a measure is enacted the coal development is a "gone" thing.

Such a proposition is absurd. It shows what a hopeless task the Legislature now assembling in special session has before it. Every fellow wants the other fellow's property taxed enough to pay the State debt and deficit.

## There Is a Wonderful Spirit Behind This Great Day

It is the undaunted spirit of the concentrated efforts of Huntington's most progressive stores. In spite of the sensational advancement in the price of all kinds of materials, they have determined to make "DOLLAR DAY" a decided success.

Prices are reasonably low—in the face of conditions they are amazingly low. Everything in the make-up of this great sale has advanced in price, but close co-operation with their source of supplies has enabled Huntington merchants to avoid many difficulties and numerous attractive offerings will result.

The various business houses are enthusiastic over their special preparations and promise many surprises to the value-wise—presenting many opportunities to save, impossible under other conditions.

From your stand point as a consumer, "DOLLAR DAY" is an opportunity you cannot well afford to miss. For the DOLLAR will be king and you will be amazed at the homage done him this day.

## Had Terrible Pains in Kidneys and Back.

Dear Mr. Editor—I want to write you about "Anurio." I was very sick, could hardly be up; I was in bed most of the time. Had terrible pains in my kidneys and back, so much so that I had to scream sometimes when I was sitting down and wanted to get up, the pain was so great. I had tried a well-known kidney medicine but it didn't help me. I heard of Dr. Pierce's Anurio Tablets so I thought I would try them. I took only one box of the Tablets, and my back is now free from pain and I can work and take care of my family. I feel I cannot say enough for this medicine. Sincerely, Mrs. Wm. Keller.

**NOTE:** This "Anurio" is adapted especially for kidney complaints and diseases arising from disorders of the kidneys and bladder, such as backache, weak back, rheumatism, dropsy, congestion of the kidneys, inflammation of the bladder, scalding urine and urinary troubles. The physicians and specialists at Dr. Pierce's great Institution, at Buffalo, N. Y., have thoroughly tested this prescription and have been with one accord successful in eradicating these troubles, and in most cases absolutely curing the diseased kidneys.

Patients having once used "Anurio" at Dr. Pierce's Invalids' Hotel, have repeatedly sent back for more. Such a demand has been created that Dr. Pierce has decided to put "Anurio" in the drug stores of this country, in a ready-to-use form. If not obtainable send one dime by mail to Dr. Pierce for trial package or 50 cents for full treatment.

## TO THE VOTERS OF LAWRENCE COUNTY.

My experience enables me to do better work than ever before. I have installed a system and equipment for making book records with typewriter, the modern and legible way. Indexes are kept up-to-date. If entrusted with this important office again I shall continue to improve the methods. Respectfully,

## DR. HILL'S ADDRESS AT LINCOLN DAY CELEBRATION.

His best tribute to Lincoln on this, the eve of his birthday, is loyalty to his successor, said Dr. John Wesley Hill, Chancellor of the Lincoln Memorial University at the celebration at Cumberland Gap.

It is better, he said, to recognize and honor such peerless leaders while they are at work in our midst than to wait until the death certificate is issued. "Could Lincoln—slendered, maligned, criticized, assailed and assassinated—have heard the faintest echo of this tumultuous applause that now greets his name, the prolonged night through which he passed would not have been starless. Could McKinley have heard the agonizing groans of the nation above his coffin dust, his heart would have been strengthened during the burdensome days of the Spanish-American War."

"There is another in our midst today, standing at the center of a world crisis. Great interest and issues are revolving about him. The destiny of the nation is in his hands. His burden is as great as any ever imposed upon mortal man. Yet, in the midst of the tumult, he is working so silently that we are scarcely conscious of his presence. Power is always silent."

"At such a time as this, partisanship should disappear, patriotism should occupy the foreground, and every man who loves the flag and who believes in the protection of American rights and the preservation of our national self-respect, owes it to his citizenship to stand loyally by the President, to uphold his hands, and thus to contribute to the solution of the great problems which confront him. This loyalty to his successor will be our best tribute to Abraham Lincoln."

## OUR LITTLE GROUCHES.

We all love heroes. There is enough of the poet and the actor in the average man, there is enough imagination, to enable him to put up a fair imitation of a hero whenever the opportunity offers.

We can all manage to meet failure, grief and death with some show of bravery.

But we are very often cowards when we face the petty irritations of every day. And as these are of hourly occurrence we are much less heroes in fact than we fancy ourselves. So it is a good plan, once in a while, to make a little record of our ordinary grouches.

There's the getting-up grouch. Its causes are many, the cure is the same for all. It can be bad before we leave our rooms—just a little deep breathing before the open window, or a cold plunge, will do the work.

There's the grouch because the morning coffee is too weak or too strong. Well, most if us drink too much coffee anyway.

There's the grouch because we have to stand up in the street car. But hanging on a strap is excellent exercise, as good as a 25 measure, for that part of the population which sits at work all day.

There's the grouch over our clothes—which are never quite good enough. We can never cure this by buying more. If a woman can afford a chinchilla coat at \$4,500 she covets a cable cape at \$20,000. But if we put our minds on the needs of the Red Cross in Europe we very soon become ashamed of our mad chase for finery.

There's the office grouch—which consists in trying to go opposite to the course of business events. Just-average human perversity kills harmony and co-operation in many an organization. There's always someone above us or next to us to be jealous of. The cure for this is to remember that "he who would command must first learn to obey." And if this kind of philosophy does not help, then the honest thing is to find another job.

Every morning we arise afresh upon all of our little pet grouches as if they were novelties belonging to each one exclusively, and not ancient incurable diseases which we should have discarded years ago. And perhaps we

If you intend to plant cane this spring and wish to know in advance what it will bring in the fall, call at the LOBACO COMPANY'S office and we will contract for your entire crop furnishing the barrels. ### Rules For Spraying Trees.

1. Spray without ceasing.
2. For General Clean Up use Lime-Sulphur mixture. Apply when trees are dormant, Spring or Fall or both. Better both. Amount used varies with strength of Lime-Sulphur. Usually 1 gallon Lime-Sulphur to 20 gallons of water. Put on with fine nozzle. Wash entire surface of tree.

## UNSHAKEN TESTIMONY.

Time is the test of truth. And Doan's Kidney Pills have stood the test in Louisa. No Louisa resident who suffers backache, or annoying urinary ills can remain unconvinced by this twofold testimony.

J. B. Peters, Prop., hardware store, Lock St., Louisa, says: "I was in constant misery whether walking, sitting or bending, on account of my back. When I attempted to rise after sitting, my back felt weak and sharp pains shot through my kidneys. Rheumatic pains seemed to be all over my body, but particularly in my knees, hips and joints. This kidney secretions were irregular in passage and sometimes bothered me at night. The secretions were unnatural, too, and were scalding in passage. I was languid, discouraged and run down in health. Doan's Kidney Pills did me a lot of good and after taking four boxes, I felt as if I had a new pair of kidneys. All the pains were removed." (Statement given June 28, 1908.)

On December 1, 1916, Mr. Peters said: "Although I have very little trouble with my kidneys now, I do find it necessary to take Doan's Kidney Pills once in awhile. I always get the same good results."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Peters has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

### THE HOME CIRCLE AND ITS INTERESTS.

Column Dedicated to Tired Mothers as They Join The Home Circle at Evening Tide.

Tell Her So.

Amid the cares of married life, in spite of toll and business strife, if you value your sweet wife, Tell her so.

Prove to her you don't forget The bond to which the seal is set; She's of life's sweetest the sweetest yet— Tell her so.

When the days are dark and deeply blue, She has her troubles, same as you; Show her that your love is true— Tell her so.

There was a time you thought it bliss, To get the favor of one kiss; A dozen now won't come amiss— Tell her so.

Your love for her is no mistake— You feel it, dreaming or awake— Don't conceal it. For her sake— Tell her so.

Don't act, if she has passed her prime As though to please her was a crime; If ere you loved her, now's the time— Tell her so.

She'll return for each caress, A hundred fold of tenderness; Hearts like hers were made to bless— Tell her so.

You are hers and hers alone; Well you know she's all your own; Don't wait to "curve it on a stone"— Tell her so.

Never let her heart grow cold— Richer beauties will unfold; Is she worth her weight in gold; Tell her so.

What is it that makes a home? All men and women have the indefinite knowledge of what they want and long for when the word is spoken. "Home," sighs the disconsolate bachelor, tired of boarding house fare and buttonless shirts. "Home," says the wanderer in foreign lands as he thinks of mother's love, of wife and sister and child. The word has in it a higher meaning, hallowed by religion; and when the christian would express the highest of his hopes for a better life, he speaks of his home beyond the grave. The word home has in it the elements of love, rest, permanency and liberty; but besides these it has in it the idea of an education by which all that is purest within us is developed into nobler forms, fit for a higher life. The little child by the home fireside was taken on the Master's knee when he would explain to His disciples the mysteries of the kingdom.

Mothers And Boys.

Of all the love affairs in the world, none can surpass the true love of the boy for his mother. It is pure and noble, honorable in the highest degree to both. We do not mean merely dutiful affection. We mean a love which makes a boy gallant and courteous to his mother, saying to everybody plainly that he is fairly in love with her. Next the love of a husband, nothing so crowns a woman's life with honor

as this second love, this devotion of a son to her. And we never yet knew a boy to "turn out" badly who began by falling in love with his mother. Any man may fall in love with a fresh faced girl, and the man who is guileless with the girl may cruelly neglect the worn and weary wife. But the boy who is a lover of his mother in her middle age is a true knight who will love his wife as much in the so-called autumn as he did in the daisied springtime.

Charity At Home.

No reward comes to him who robs himself of what he needs to sustain life and health, or what is needed to care for his own, merely to give to those who ask. No man has a right to give what is not fully his own; no right to give away any time that belongs to another, to create poverty in order to relieve poverty; to lose the respect of his home ones, or to do what will weaken their faith in him as a provider and a protector.

Man's duty is to God, and he discharges the duty when he is true to the family that is the result of his making and begetting. Men err by withholding when they have means to spare as well as not, and they err by giving heedlessly to the endless asking of those whose great aim in life is to attach themselves to those inclined to charity. Help those who are in sickness, in trouble and distress. If you can do so without robbing your creditors, yourself or your family. Be just, and then be generous. To give wisely is an art, to give well is to give successfully. To provide employment is even humane and wise, but you should give it or find it to those who try to deserve such assistance, not to those who are lazy, dirty, shiftless, careless and indifferent to your success. Let those who will not try to come up just a little higher, with your help, remain where they are, except you are able to give.

No man has a right to walk deliberately into poverty in order to prove his manhood or a disposition to humanity. This is not the way to help mankind, or to serve your country. When a man is stricken down, then help him if you can, but do not encourage him to fall again and to keep on falling simply to be helped. Do not be a miser, nor yet a spendthrift. Do not be selfish, but be careful to preserve your own health, means and ability to help those who will be with us tomorrow, as well as to-day.

### EAT BIG MEALS! NO SOUR, ACID STOMACH, INDIGESTION OR GAS

"PAPE'S DIAPEPSIN" IS QUICKEST, SUREST STOMACH RELIEF KNOWN—TRY IT!

Time it. Pape's Diapepsin will sweeten a sour, gassy or out-of-order stomach within five minutes.

If your meals don't sit comfortably, or what you eat lies like a lump of lead in your stomach, or if you have heartburn, that is usually a sign of acidity of the stomach.

Got from your pharmacist a fifty-cent case of Pape's Diapepsin and take a dose just as soon as you can. There will be no sour risings, no belching of undigested food mixed with acid, no stomach gas or heartburn, fullness or heavy feeling in the stomach, nausea, debilitating headaches or dizziness. This will all go, and, besides, there will be no sour food left over in the stomach to poison your breath with nauseous odors.

Pape's Diapepsin helps to neutralize the excessive acid in the stomach which is causing the food fermentation and preventing proper digestion.

Relief in five minutes is waiting for you at any drug store.

These large fifty-cent cases contain enough "Pape's Diapepsin" to usually keep the entire family free from stomach acidity and its symptoms of indigestion, dyspepsia, sourness, gases, heartburn, and headache, for many months. It belongs in your home.

OBITUARY.  
The black winged messenger visited our neighborhood on the 14th day of January, 1917, and claimed for its

victim, Rev. J. M. Riffe. He was a minister of the Christian church and an attorney at law, with great honors. He wielded much influence in his neighborhood, in fact he was a leader. He was born Jan. 8, 1836 and died at the age of 81 years and 16 days. His

sickness was of long duration and all was done for him that kind hands of dear children, grandchildren and neighbors could do, but they could not stay the deadly blow.

He was a man highly respected, loved and honored by those that knew him. He was married to his wife, Martha Jane Riffe, Nov. 20, 1856 and lived with her 68 years, 9 months and 27 days when her noble spirit winged its way to the mystic regions of the great beyond on the 16th day of September, 1916, and from that day to the day of his death he was lonely, though well cared for by his dear children and grandchildren and kind neighbors. He was laid to rest in his home graveyard by the side of his wife. The burial services were conducted by Rev. V. D. Harman in the presence of a large crowd of sorrowing relatives and friends, who will see or hear from him no more until the morning of the resurrection when the trump of God sounds the retreat of worlds and the

pathetic dust is reconstructed into organic unity and soul and body, friends and loved ones are reunited on the sunny banks of sweet deliverance, bless the friend, neighbors and relatives of uncle Jerry.

## SNOOKEY OOKUMS.

## BANISH CATTLE PESTS.

Method of Treatment to Eradicate Lice on Farm Animals.

This is the time of year when lice begin their worst work. Live stock, especially calves and colts, suffer torments and grow thin and rough looking when much of their grief is due to the unchecked ravages of lice. Many a cow has struggled through the winter trying to furnish milk and feed an army of crawling, blood sucking pests besides.

Lice can be got rid of without much expense or labor. The sheep clip on the market mixed to a strong lye solution well warmed and sponged on to the animal, going the wrong way of the hair, will do the business.

Don't just dampen or wet the animal in a few places, but soak every inch thoroughly. Do this in the sunshine on a warm day and provide shelter until dry.

Repeat again in ten days and wash mangas, posts and rubbing places around buildings with the same solution.

These lice are not only a pest to the animal, but they are also a pest to the farmer. They are a source of trouble and expense. They are a source of trouble and expense. They are a source of trouble and expense.

## FOR POULTRYMEN.

Here are some good poultener's mottoes:  
Plan your work, then work your plan.  
Stop guessing—know.  
Do it now.  
Trap neat, leg band, keep accounts, records, have system.  
Trifles make perfection, and perfection is no trifle.  
The colder the day the more cora feed.  
Many holes, many colds.

## WORM INFESTED HORSES.

Animals Thus Afflicted Soon Get Out of Condition.

Many horses get out of condition or fail to make gains during the winter months because they are infested with worms. This is especially true of colts. Horses suffering from worms generally have a good appetite, but apparently benefit little from the food eaten.

There may be no symptoms which point conclusively to worms, but this trouble is so common that if the colts and horses are not doing as well as they should for the feed given, a worm remedy may prove of decided value. In treating horses for worms Dr. L. S. Backus of the Missouri College of Agriculture suggests it is well to keep in mind that the drug is meant for the worm rather than the horse and should therefore be given in as concentrated a form as possible. To insure this little or no bulky food should be fed during the course of treatment, and as the parasites are stupefied by worm remedies rather than killed the animal's bowels should be kept in an active condition so that the stupefied worms may be passed out before they regain their vitality. A well salted bran mash once a day will generally insure such an action.

The following formula is a worm remedy which is also of value as a tonic: Powdered nut vomica, two ounces; powdered gentian root, four ounces; powdered arsenic, six ounces; sodium chloride (common salt), four ounces; arsenious acid, two drams. Mix.

Give a heaping teaspoonful to every 250 pounds weight every morning and evening for about ten days. The medicine may be mixed with ground feed or sprinkled over oats or corn which has been dampened.

## NOTE THE BREEDING PENS.

Select Only Thrifty Hens and the Sturdiest Males in the Flock.

The farm flock either improves or deteriorates from year to year according to the attention given to the mating which precedes the laying of the eggs used for hatching, says Better Farming. Now is the time to note the breeding pens for hatching eggs in February. Make the final selections and keep only the strongest, thriftiest, best, most healthy, best bodied roosters.

All improved stock returns to the normal or mediocre unless one constantly breeds up and up. There is no standard. The flock either goes forward or backward in strength. It might as well get better. To insure that requires only a little attention to the mating. Do it now. Pick out your breeding stock and watch the results in the next crop of chicks. No work on the farm will pay better than the few hours spent in mating up the breeding pens.

See that the layers are receiving a good laying ration, supplying plenty of protein, green feed and oyster shell. This is the time to feed the surplus vegetables that are stored away in the cellar. A cabbage head suspended by strings a couple of feet from the floor will be relished by the hens. Be sure you are giving them plenty of exercise.

Clean up the incubator and get it in running order. It might be advisable to run a trial hatch before the season opens.

There is always some new equipment, such as brooders and feed hoppers, and this is the time to order all such supplies.

Have you considered any addition to your poultry yard? A small trial with ducks, geese, turkeys, capons or pigeons may prove profitable.

## ORCHARD HINTS.

The soil should be well prepared before trees are planted in a new orchard. Plow it deep with a turning plow; then harrow till there are no clods. Even after doing this it pays to blast holes for the trees.

Experiments have shown that trees in blasted holes grow much faster and bear sooner than trees set where there is hard subsoil for the roots to penetrate.

If blasting is not done it will be advisable to throw out the plowed soil with a shovel at the spot where a tree is to stand and dig deep with a pick, and one should never fail to have the ground loosened deep for pear trees, as their roots grow downward more than any other kind of trees and often die because of shallow holes.

When the trees are planted their tops should be cut off about one-third the way down. This helps the roots to take hold in the soil, shuts off much of the demand of the tree for elements from the soil and goes far toward insuring the life and the healthfulness of the tree. And this topping ought to be done each year till about the third year.
